SRINIVAS NELAPATLA

Hyderabad, Telangana | +91 6281732036 | srinivasnelapatla22@gmail.com | srinivas3006 (Srinivas_Nelapatla)

CAREER OBJECTIVE

Motivated Computer Science graduate with a strong foundation in Data Structures, Algorithms, and Object-Oriented Programming, along with hands-on experience building and testing web applications and REST APIs. Seeking a Fresher Software Engineer role to design, develop and deliver reliable software solutions while continuously learning modern development and AI-assisted engineering practices.

KEY SKILLS

Programming Languages: Python, JavaScript
Core CS Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP)
Web & API Development: REST APIs, Django REST Framework (DRF), Vue.js, HTML5
Database: Basic SQL and DBMS concepts
Tools & Platforms: Git & GitHub, Postman, MS Excel, MS Word
AI Skills: Prompt engineering, applying AI tools to accelerate development and debugging
Soft Skills: Analytical thinking, problem-solving, attention to detail, teamwork, clear communication, quick learner

EXPERIENCE

Backend Developer Intern — Swalook Global Private Limited (Remote) *Oct 2025 – Apr 2026*

- Developed backend functionality for customer onboarding, membership management, coupon assignment, and loyalty points using Django REST Framework.
- Debugged and resolved backend issues related to validation, payload structure, and data consistency.
- Collaborated with team members on daily tasks, participated in progress reviews, and communicated updates to supervisors regularly.
- Optimized API responses to return only required business data, improving performance and frontend usability.

Projects

UV Homez UV Homez | Premium Interior Design & Construction in Hyderabad

- Engineered a custom, data-driven architecture that dynamically renders portfolio projects, services, and testimonials from a centralized JSON payload, allowing non-technical stakeholders to update content without code changes.
- Developed an interactive UI featuring dynamic portfolio filtering, custom Ken Burns animations, and performant scroll-triggered reveals utilizing the Intersection Observer API.
- Executed comprehensive technical SEO strategies, including Open Graph meta tags, Twitter Cards, and Schema.org Local Business markup to maximize search visibility.
- Configured automated CI/CD deployment pipelines via Netlify for seamless, zero-downtime production updates.

Hardware Store POS Application Hardware Store POS

- Developed a Point-of-Sale (POS) web application using Vue.js and HTML5, implementing cart, billing, and multi-tier tax calculation logic (CGST/SGST at 18% and 28%).
- Built application logic for state persistence, ensuring data integrity after forced browser refresh.
- Integrated and validated REST API calls using Postman, verifying correct HTTP responses and error handling.
- Used Git for version control and structured commits throughout the development lifecycle.

EDUCATION

B. Tech – Computer Science & Engineering, SVEC *2021 – 2024*
CGPA: 7.59

Diploma – Mechanical Engineering, Government Polytechnic College *2018 – 2021*
CGPA: 8.35
